The purpose of the Intensive School-Based Intervention model is to provide short-term intervention, coaching, and training to classroom teachers and support staff in order to keep students in their least restrictive environment, and prevent outplacement whenever possible. This model combines 1:1 intensive behavioral intervention with high quality evidence-based training and coaching for classroom staff. The main goal of the ISBI team is to provide short-term, cost effective intervention in order to promote long term success in the classroom.

SERVICE GOAL: To keep students in their public school classrooms and avoid outplacement.
